Vote ATX

"Where is the best place to vote right now?"

Voters have numerous options and the best choice isn't always obvious – and may vary during the early voting period.

This mobile-friendly web app helps you find the best choices for polling locations.

Instabus

The "Instabus" app connects to the real-time API for the Metro Rapid bus service, and provides a simple, optimized interface to bus routes and status.

The app was selected as the participants' favorite at the ATX Hack for Change 2014.
